

Alfasigma: Production plant in Trezzano Rosa (Milan, Italy)

Today, Alfasigma has four production sites in Italy: Alanno in Abruzzo, Pomezia and Sermoneta in Lazio, and Trezzano Rosa in Lombardia. Sermoneta is a chemical plant, while the facilities in Alanno, Pomezia, and Trezzano Rosa produce prescription and over-the-counter drugs. The Trezzano Rosa plant employs about 120 people, more than half of whom are dedicated to production and production-related services.

History - Sofar S.p.A. was founded in 1968 and moved its production hub to the Trezzano Rosa plant in 1986, with subsequent expansions until the early 2000s.

Dimensions - The plant consists of three buildings that house production areas, laboratories, warehouses, and offices.

- 24,900 sqm of total surface area
- 10,000 sqm of covered areas
- 5,300 sqm of production and laboratory space (46%)
- 4,000 sqm of warehouses

Production capacity - The site's production capacity is:

- about 100 million doses per year (oral solids, non-sterile liquids for internal use, creams and gels, pressurized foams).
- over 10 million packs, distributed mainly in Italy, and also exported to Europe and Asia.
- 10% of the production is destined for export.

Products and pharmaceutical forms - Production focuses on several pharmaceutical forms:

- oral solids (granules in sachets, coated and uncoated tablets).
- non-sterile internal-use liquids (bottles).
- pressurized foams (aerosol cans).
- semi-solids (creams, gels).
- Class I and IIA medical devices (gels, powders, non-sterile liquids in bottles).

Notable products manufactured at Trezzano Rosa include Pentacol, Sofargen cream and spray, and phosphate salt enemas.

News - In September 2020, AIFA (Italian Medicines Agency) authorized the new secondary packaging line for gastro-coated tablets.

Expansion to the markets of UAE, Azerbaijan and Uzbekistan.

In October 2022 Sofar S.p.A. and therefore the Trezzano Rosa plant became part of the ALFASIGMA family.

Giuseppe Allocca is the Corporate Operations & Supply Chain Executive Director. With a degree in Chemistry, he joined Alfasigma in January 2020 after a long experience in Pfizer, where he managed manufacturing plants in Italy and abroad.
